AUTO HAULER

SPECIALLY ENGINEERED FOR AUTOMOTIVE TRANSPORT HAULING

Ultra-Low Roof Star Light Sleepers are a popular Car Hauler amenity.

The AirLiner suspension is known for its ability to cushion the ride for drivers while protecting truck components from stress and strain.

The Western Star instrument panel can be spec'd any way you like and includes such amenities as a satellite radio, wood grain panels, moveable gauges and a powerful HVAC system

The Western Star Auto Hauler offers a short 123" BBC, 54" and 68" Ultra Low Roof Sleepers, extra-low front and rear suspensions, low 101.4" cab-to-ground height, and maximized head room and the premium performance of the Cummins ISX15 engine to give you the power to deliver and the handling to do it with relative ease.

It was built by engineers who know what it takes to turn the daily grind of the transport business into monthly profits.
