Never follow in anyone’s footsteps.

You know how that story goes.
We don’t like being told how things are going to be. We bet you don’t either. Here, doing things our way is our way. Like still building trucks for customers one at a time. Or when they tell us we can’t build a completely custom truck, we set out to prove them wrong.

Sure, we know this means a Star isn’t for everyone. We’re okay with that. Because we build our trucks for those individuals who expect something better than average. Who look at their truck as an investment, rather than an expense.

So if you’re someone who thinks that there are more important reasons to buy a truck than quality and value, well, you might as well not bother turning the page.
A HERITAGE OF POWER, STRENGTH AND INCREDIBLE VALUE.

If you like what you’ve seen so far, just keep reading.
For over fifty years, we’ve been tackling the jobs no one else can. From our start in logging to building custom solutions for the most demanding hauls, making stylish and reliable trucks is in our genes. Whether on-highway or off, our uncompromising dedication to quality and to our customers means you get a truck that is always ready for work.
Nope. There isn’t anyone else out there who brings you the level of handcrafted factory customization you find with Western Star. Because we build them one at a time, our attention to detail gives you a truck that’s an incredible value. Long-lasting, quiet, reliable, durable. It’s made to keep on delivering well after the others have been put to pasture.

Our process also lets us work with you to create the truck solution you need. Sure, there are over 3,600 options, but we don’t believe little things like “it’s never been done before” should get in the way of getting what you want. That’s the difference with owning Western Star.
Extreme durability cab with a multi-stage e-coat process for maximum strength, safety and corrosion resistance.

Concealed forged steel door hinges for increased longevity and strength, as well as improved door fit and alignment.

1800-square-inch, two-piece windshield for excellent visibility.

Heavy-duty hood pivot option resists twisting and contributes to longer component life, reducing repairs and downtime.

Wide range of tilt fiberglass hood options from classic to sloped supervisibility.

Easy-opening, 90-degree tilt hood with spring assist reduces effort and helps ensure routine maintenance checks are made.

Multiple chrome bumper options with center tow pins.

High-visibility halogen headlights come standard for greater visibility.

Advanced steering geometry makes driving easier.

Option availability subject to model configuration.
SOME SAY WE OVER-ENGINEER OUR TRUCKS.

Every component is a critical component. Has to be when you build a truck to last. From rocker switches to screws, we don’t overlook a single detail. And you’ll find signs all over, like the fuel tanks we build ourselves or the caps and brackets branded with the Western Star logo. If it doesn’t meet our standards, it doesn’t get our brand.

One big, comfortable cab.

The cab you find on a Western Star is all business. Spacious, quiet, strong and simple to repair. Like you, it’s made for the long haul.

WE SAY THEY OUGHT TO RAISE THEIR STANDARDS.

Welcome to the future. And the future is light. But making one of the lightest sleepers on the market is only part of the reason for our honeycomb construction. First, using aerospace technology eliminates the weight of traditional fasteners, but our honeycomb composite also increases durability, soundproofing and insulation. So you get greater quiet and comfort all year long.

Option availability subject to model configuration.
Getting a Star is all about choices, and we make sure there’s profitability in every one. That’s why you’ll find a selection of powerplants like the Detroit™ DD13®, DD15® and DD16® engines. And we even have you covered if you’re a Cummins fan. Efficient, powerful and dependable. There’s no shortage of getting what you want around here.

DEMAND POWER AND EFFICIENCY.
Detroit® engines are engineered to deliver the excellent power and fuel economy you depend on while still meeting today’s efficiency requirements. That’s why each engine we build is 2016 OBD (OBD16) Certified and compliant with 2017 Greenhouse Gas (GHG17) regulations. So you can count on a powerplant that will run clean and strong for many miles to come.

**DETOUR DD13**
350-505HP, 1250-1850lb-ft.

**DETOUR DD15**
400-505HP, 1550-1750lb-ft.

**DETOUR DD16**
500-600HP, 1850-2050lb-ft.

**CUMMINS L9**
260-380HP, 720-1250lb-ft.

**CUMMINS X15**
400-600HP, 1450-2050lb-ft.
More storage

Our new door panels maximize storage and provide strong handholds to help anyone who weighs more than a lapdog to get in and out a little easier.

Maximum flexibility

Electronics device prep provides secure mounting and easy access, offering ultimate flexibility of aftermarket instruments for individual preference.

In-cab electrical panels with plug-in fuses or auto-reset circuit breakers are easily accessible and help prevent damage.

In-cab electrical panels with plug-in fuses or auto-reset circuit breakers are easily accessible and help prevent damage.

Clutch and brake pedals are suspended to keep items from getting stuck under them.

Marine grade switches provide protection from electrical shorts caused by water and salt, and are easy to use—even with gloves on.

Exposed fasteners on hinged dash for easy access.

Automatic Temperature Control maintains climate settings.

How sad.

There are people who spend their entire life behind a desk.
Yes, it’s yours. So we thought you should make it exactly how you want it. The updated, upgraded and improved interior of the Western Star lets you greet every working day with plenty of space and comfort. It’s brighter, with easy-to-clean vinyl ceilings to keep it that way. And it comes with unique features including real wood cabinets and shelving that you can move around however you want. Plus, we designed those cabinets for overall maximum storage, as well as the use of aftermarket appliances like microwaves and refrigerators. Basically, everything you need to make your job a little easier, and a lot more comfortable. Try one on for size and see how it fits.
**Most Artists Start with Canvas.**

We prefer something a little stronger.

Create your own masterpiece.

With the options and flexibility of Western Star, you can do just about anything—and it all starts with the foundation. Western Star gives you a total of five model, chassis length and axle configuration combinations to choose from. You can further customize them with our numerous sleeper lengths and heights. Then it's only a matter of choosing from all options to build the on-highway truck you want.

---

**Sleeper Dimensions**

*Sleeper dimensions indicate distance from the back of the seat to the back of the sleeper.

---

**Roof Options**

**Ultra Low Roof**
Available with 40", 54" and 68" sleepers.

**Low Roof**
Available with 54" and 68" sleepers.

**Ultra High Roof Stratosphere**
Available with 82" sleeper.
We’ve got your back when you need it most. In other words – always.

A truck is a big investment. That’s why we think you should expect more support from your manufacturer and dealer than a payment book and a holiday card. We make sure you have what you need, from dedicated service to dependable parts availability and affordable financing. Oh, and we bet you’ll get that holiday card, too.

It’s a big world out there.
So we have a big network. All across North America we have parts and service centers to cover you. No matter where your job takes you, there will be a Star dealer ready to help.

A parts department that can get you something unusual. The part you need.
Our goal is unmatched parts availability. Your dealer carries a wide selection of parts, and has access to an even greater variety through our expanding global network of parts distribution centers. You get the support you need to grow – no matter where you do business.

The kind of financing you want.
Being part of the Daimler family means we can get you into the right truck at the right price with rates that are competitive with anyone, including banks. Plus, because we know the transportation and vocational business, it’s simple to get the financing you need – and into the Western Star you want.

Daimler Truck Financial
Financing that works for you.
